Sustainability Statement FY2026

Crescent Ceramics (Pvt) Ltd
Sector: Manufacturing - ceramics
Location: SITE Industrial Area, Karachi, Sindh

1. About the company

Crescent Ceramics (Pvt) Ltd operates a manufacturing plant in SITE Industrial Area, Karachi, Sindh. This statement summarises our environmental performance for FY2026.

2. Carbon emissions performance

Compared with our baseline year (FY2025), our electricity-related carbon emissions fell by 8% in FY2026.

3. Methodology and boundary

Emissions are calculated following the GHG Protocol Corporate Standard (Scope 2, location-based): electricity consumed (kWh) multiplied by an emission factor of 0.45 kg CO2e per kWh (illustrative synthetic factor). Boundary: the Karachi plant, all production lines. Baseline year: FY2025 (1 July to 30 June).

Metric	FY2025	FY2026
Electricity consumed (kWh)	3,000,000	2,760,000
Production (tonnes)	15,000	15,450
Emissions (t CO2e)	1,350.0	1,242.0
Electricity per tonne (kWh/t)	200.0	178.6

4. Energy efficiency

Electricity use per tonne produced changed from 200.0 to 178.6 kWh per tonne (-10.7%), based on the attached electricity and production records.

5. Sustainable production practices

- We adopted sustainable production practices across all production lines (see Appendix A, item 1).
- We implemented a wastewater recycling programme (see Appendix A, item 2).
- We reduced our reliance on virgin raw materials (see Appendix A, item 3).

6. Project for which financing is requested

Project: Kiln heat-recovery system and variable frequency drives.
Financing requested: PKR 35,000,000.
We expect the project to lower grid electricity demand (projection only, not yet measured).

Prepared by: Head of Sustainability (fictional) Date: 30 September 2026

Appendix A - Supporting record references

1. Variable frequency drives installed on 14 production motors - work order WO-2026-031, completed 2025-11-20.
2. Wastewater recycling unit commissioned - commissioning certificate CC-2026-007, dated 2026-02-12.
3. Recycled raw material purchases - purchase orders PO-2026-0412 to PO-2026-0455.
